The UK government recommends that travellers going to the EU after **29th March 2019** have 6 months left on their passport and is advising that any extra months which have been added to a 10-year passport will not be valid. Here is their latest information.

1. You should have 6 months left on your UK passport from your date of arrival. This applies to adult and child passports.
2. If you renewed a passport before it expired, extra months may have been added to your new passport's expiry date. Any extra months on your passport over 10 years may not count towards the 6 months that should be remaining for travel to most countries in Europe.
