

Dear Parent/Carer

Tomorrow is the live stream of our virtual careers event which is open to students in Years 10 and above and I can finally share the line-up for the event with you below. I have been having a look at some of the videos this morning and there are some great employers and advice on there! Videos will stream one after the other on the Learn Live website from 10am: <https://learnliveuk.com/lymm-high-school-careers-day/>

The event will run for almost 2 hours so we hope that your son/daughter can engage with the sessions and make the most of the opportunities to chat with employers online and find out more about working in their industries. Employers will be online whilst their videos are being streamed and for a short time afterwards so we would encourage students to ask any relevant questions when they have this opportunity.

There will be some extra videos available on demand about apprenticeships in addition to the videos that are being streamed live tomorrow.

Please note that if your son/daughter is in Year 10 they must attend any scheduled assessments or lessons and should engage with the sessions when they are free. Year 12 students have been given permission to attend any online careers sessions provided they notify their teacher that they are doing so. All sessions will be available on demand on the same website so they can be revisited in their own time. Should any student have a question or query to ask an employer after the event, these will be passed on via email.
