

# LYMM HIGH SCHOOL

is proud to be a **NATIONAL ECO-SCHOOL**

## Action Plans

### SCHOOL GROUNDS & WASTE

- 1 Research birds living in the areas
- 2 Understand what seeds the birds like to eat
- 3 Feed station opportunities and locations
- 4 Consider competing wildlife in the areas
- 5 Research beneficial insects and birds in the area and how to attract
- 6 Create bug hotels
- 7 Consider valuable hedgerows
- 8 Improve habitat on campus for insects and birds (No Mow May)
- 9 Ensure effective communication around the school

### HEALTHY EATING

- 1 Create posters and advertising around school about plant-based foods
- 2 Research students' views on plant-based food at LHS
- 3 Work with the Kitchen team to research and develop new healthy, plant-based meals and offers
- 4 Host a plant-based "taster" event in school
- 5 Look at how plant-based options are promoted and labelled in the school canteen
